**Come learn more about what we are doing!**

Define college counselor. Who are we? What are our roles? What is the standard training required? What is the student to counselor ratio? Having trouble answering these questions? That's because currently each college or district determines the definition of counselors. So what's true for your institution many not be true for mine. Isn't it time to advocate for a state standard?

**Let's advocate for a  
state standard!**

**Don't let your  
institutions whittle  
down the number of  
Counselors!**

**Our positions matter!**

**Counselors are  
trained to advocate  
for the student – Our  
students need us!**

**Join the taskforce to  
make a difference!**
